**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 5-10 and 13-15, drawn to polynucleotides, polypeptides, vectors, host cells, method of producing polypeptide and polynucleotide.

Group II, claim(s) 4, drawn to antibodies.

Group III, claim(s) 11 and 16, drawn to method of detecting polynucleotides.

Group IV, claim(s) 12, drawn to antisense polynucleotides.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the polynucleotides, vectors, host cells and polypeptides of Group I and methods of making polypeptide and polynucleotide are structurally and functionally different compounds from the antibodies of Group II and the antisense polynucleotides of Group IV and a different method from the methods of detecting polynucleotide of Group III. Lack of unity is shown because these compounds or methods lack a common utility which is based upon a common structural feature which has been identified as the basis for that common utility.

Whichever group is elected, there is a further election required within that group, pertaining to polynucleotide and polypeptide, antibody and methods of using from four different groups:

A) SEQ ID NOS: 1 and 2,

Art Unit: 1647

B) SEQ ID NOS: 3 and 4,

C) SEQ ID NOS: 5 and 6 and

D) SEQ ID NOS: 7 and 8.

The inventions listed as Groups A-B do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the polynucleotides, polypeptides and antibodies of Groups A-B are functionally and structurally distinct compounds from each other, and therefore the methods are also structurally and functionally distinct. Lack of unity is shown because these compounds or methods lack a common utility which is based upon a common structural feature which has been identified as the basis for that common utility.

A telephone call was made to Stephen B. Maebius on 25 May 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
